

2026 Lunch & Learn program:

Latest in Implant Prosthodontics

BYDESIGN
IMPLANT DENTISTRY

Hosted by **Dr. Sher Shahab**

Topics to choose from:

1. Introduction to implant prosthodontics (45 mins)

- Restorability-driven planning: thinking prosthodontically
- Indications for single, multi-unit, and full-arch implant care
- When to treat, when to refer, and why it matters

2. Treatment acceptance (45 mins)

- Why patients say no: understanding hesitation and fear
- Communicating value clearly without pressure
- Team roles in improving case acceptance

3. Implant maintenance and hygiene (45 mins)

- Biological differences between teeth and implants
- Identifying and managing peri-implant disease early
- Maintenance protocols and referral thresholds

Why book a lunch & learn?

Team engagement: Bond over lunch while learning valuable skills

Expert insight: Practical knowledge from a prosthodontic specialist

Enhanced care: Skills to improve case selection and patient outcomes

CE credit: Earn one hour continuing education credit per session
